#### TWELVE-ENGINED FLYING BOAT IN RECORD FLIGHT

SOARED OVER LAKE CON-STANCE WITH 159 PASSENG-ERS AND CREW OF TEN

ALTENRHEIN, Switzer-land, Oct. 21. (AP)—The huge 12-engined flying boat Do-X, which was launched here last July, today made an amazing one-hour flgiht with a human load of 169, the first time in the history of aviation that so many persons have been carried into the air or

of aviation that so many persons have been carried into the air on any conveyance.

The glant Dornier plane took off at 11:15 a. m., and landed just one hour later. The machine flew over Lake Constance, her motors working faultlessly and fanded with her 51-ton load at 12:15 p. m., without a hitch.

The DO-X carried 150 passengers and a crew of ten. She had made previous test flights but this was the first time that so great a load was taken up.

The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her pacities, was built in the greater, secrecy. She was designed to carry forty pasengers normally, but has accommodation for 100 if necessary. Her twelve engines can develop a total of 6,000 horsepower, and each engine can be treated individually without affecting its velop a total of 6,000 horsepower, and each engine can be treated in-and each engine can be treated in-dividually without affecting its dents in Texas.

three weeks of martial law, Borger, scapegrace of the Prairie oil fields, was "on its own" again today, its citizenry hoping for a new era of law and order.

Despite the lack of a formal proclamation from Austin lifting martial law, military rule had been supplanted by civil authorities, appointed and approved by forces sent to Borger three weeks ago to break the reign of unlawfulness.

Governor Moody had been expected to issue the proclamation yesterday, but at his office it was at adid the probably would not be issued until his return to Austin, or not before Wednesday.

Agler, resident state highway engineer, stated Monday morning. Good progress has also been made on the grading on the highway from Rchland onrthward to the Beaton tank about two miles south of Corsicana, Mr. Alger continued, and it is expected that the dump on this sector will be completed within the next two weeks.

Work on the bridge spanning Richland creek has not been started and is being held up due to the failure of the piling for the bridge to arrive here. Mr. Agler stated that actual work on the Richland creek bridge should be started by the second week in November.

Grading continues on Highway 75 north of Corsicana to the Ellis-Navarro line and the construction of the big concrete bridge at Chambers creek underway, near the old channel of the creek, and it is expected that the work over the new channel will begin in the near future. At the present time, the piling and other work at the old channel site is under way.

#### NAVAL CONFERENCE EFFORTS, **CHINESE REVOLTS; ELECTIONS** AMONG WEEK'S CHIEF EVENTS

(By The Associated Press.)
With the acceptances of France,
Italy and Japan in hand, the fivepower naval conference towards
which the conversations of President Hoover and Prime Minister
MacDonald have been working, became a living pact in international
politics last week, and diplomats
settled down to preliminary work.
France and Italy began maneuvering for advantageous positions
before the conference opened, and
Italy invited France to discuss a

but through the regular diplomatic channels.

In proposing the exchanges, Italy, as in the past, insisted on naval parity with France, but gave the problem a new aspect by offering to make the tonnage as low as France wished.

New Chinese Revolt.

In the Far East, Chinese politics went into convulsions after a week of surprises, revolts and raids.

It is difficult to disentangle the relations of the parties to the new conflict in China, perhaps most easily understood as a revult of certain military chiefs and left-wing elements of the Kuomntang against the Nanking regime of President Chiang Kai-Shek.

The postions of Marshal Feng-Yu-Hsiang and Governor Yen Shi-Shan of Shensi province complicated the situation.

Actual-hostilities began in Honan province between Feng's Kuominchun soldiers and the Nationalists, with the Kuaminchun supported in its drve for Hankow from the north by the march of revolutng "Ironsides" division' from the south.

There were minor revolts against the Nationalists in Shantung. Canton was apparently wavering in its loyalty, and the hard-fighting Kwangsi leaders seemed ready to leap at Nanking on the first favorable occasion.

As France and Italy are the two chief Mediterranean powers and have identical views on the value of submarines and the interdependency of disarmament in all branches of warfare, land, air and naval, their meeting will be an important factor in the lineup of the London conference. Ormsby, who with a companion, Henry Chenoweth, killed Charles Chulla, bootlegger, on a raid after they had been dismissed from government service, has returned to Kern county, authoritics said, and on the pretense he is a federal agent has disguised the operations of a large liquor ring.

Federal officials declined to name the other ten men against whom secret indictments have been returned. Agents said the flagrant manner in which Ormsby flaunted his "fake federal barges" brought their attention to the operations.

"Mr. Edison has brought to our country great distinction throughout the world. He has brought great benefactions to all of us, and it is but a small thing we may do to record the appreciation, esteem and honor in which the nations hold him."

Mr. Edison, who braved the rain to welcome the president at the Ford plant at Dearborn and accompanied the party to the early American village which Mr. Ford has reproduced as a monument to the inventor, did not make the trip here and so disappointed the

crowds.

He was not feeling any too good and his friends decided he should remain indoors for the time.

After the city hall ceremonies the president and Mrs. Hoover drove back to the home of Mr. and Mrs. Henry Ford at Dearborn.

WICHITA FALLS, Oct. 1.—(A)—
Members of a special jury venire
were called by the defense here
today in an effort to prove that
Tom Shook, former Electra police
chief, could not obtain a fair trial
in Wichita county on a charge
of robbery with firearms.
Questioning of veniremen started after an hour and a half had
been taken up in disposing of technicalities. The first two witnesses (Continued From Page 1) assert that the farmers of Ameri-ca will be injured rather than beneitted by the passage of the meas-

debate.

The smuggling amendment prosposed by Senator Steiwer, republican, Oregon, would relieve companies operating ships as common recarriers from liability in narcotic violations if the owner or master could establish their ignorance of the smuggling. the smuggling.
